Global Student Leaders Summit

Global Citizenship in a Changing World

PERU 2017

HOBY: Sustainable Service in the Sacred Valley

March 10 - 20

All of our actions impact others, and the actions of others impact us. As our world becomes increasingly interconnected, the very things that unite people around the world inevitably affect local customs. At this Summit we'll investigate the role of a global citizen in this changing world, and examine how Peru is adapting and innovating cultural traditions in order to shape its future amid the pressures of globalization.

On this tour, you'll engage in a service project that helps empower locals to do business in the global economy. You'll also try your hand at Peruvian weaving with artisans before discovering the importance of preserving ancient wonders on a visit to Machu Picchu. All the while, you'll experience Peru through the lens of global citizenship and innovation.

What you'll experience on the Peru Summit:

IMMERSIVE TRAVEL

Touring Peru brings the Global Citizenship theme to life as students gain knowledge and hands-on experience through cultural activities.

THOUGHT LEADERSHIP

World-renowned speakers and experts on Global Citizenship lead discussions and workshops to inspire and educate students. Past Summit speakers have included Al Gore, Jane Goodall and Sir Ken Robinson.

DESIGN THINKING

Small international teams of students learn the design thinking process and then use it to propose solutions to today's most pressing global challenges.

ONLINE LEARNING

weShare, our online learning platform, gives students a place to research, reflect and share their projects pre and post-tour.

Space is limited.

Please ask your teacher for your tour number and visit eftours.com or call 800-665-5364 to get started or sign up.

Day 1: Miami

Meet your group in Miami and overnight in this exciting city before departing for Peru on Day 2.

Days 2–4: Lima & Cuzco

Fly to Lima and meet your Tour Director at the airport. A coastal oasis at the foot of the Andes, Lima has served as Peru's capital since 1535. Fly to Cuzco, the former epicenter of a vast empire stretching from Columbia to Chile. Notice the Spanish influence in Cuzco, where Baroque architecture coexists with Inca ruins, before exploring the Sacred Valley of the Incas.

See just how scientific local craftwork can get during a weaving demonstration. Peruvian artisans transform everyday wool into vibrantly dyed textiles, featuring some of the most intricately detailed patterns and finest textures on earth. You'll gain a whole new appreciation for the artistry and skill required as you try this spinning and weaving process for yourself, while learning about the natural resources that these artisans ingeniously use for dye.

Days 5–6 Ollantayambo

Prepare to dive into your service program. EF works closely with local non-profit partners to better understand each community and develop sustainable service projects that help foster lasting change.

You'll work to help communities here interact with, contribute to, and benefit from the global economy. These communities grow flowers to sell to the international market, work together to form weaving cooperatives, and farm trout in order to do business in our globalized world. As you gain insight into the challenges these communities face, you'll help build lasting, empowering solutions.

Day 8-10: Leadership conference

Head back to Lima for the leadership conference. It begins as you connect with students from all across North and South America in this inspiring and innovative setting. Over the course of two days you will hear from world-renowned keynote speakers, work with local and global experts, and collaborate with peers in small international teams. You will learn the design thinking process to develop solutions to the challenges of global citizenship and be inspired to take action back home.

Day 11: Depart for home

Fly back to Miami on March 20th (Day 10) for one final night with your group. The next day return home, prepared to join the movement

Day 7: Machu Picchu

Visit Machu Picchu, the fabled "Lost City of the Inca" and one of the New Seven Wonders of the World. Hike through the cloud forest toward the Sun Gate at this UNESCO World Heritage Site.

Built around 1450, the site was abandoned at the time of the Spanish conquest, an early and significant period of globalization. Machu Picchu was "re-discovered" by North American explorer Hiram Bingham at the turn of the 20th century (after he was led to the site by locals), and it became well known all around the world. Think about how foreign visitors like Bingham experienced Machu Picchu, compared with locals who knew the site for centuries.

As you explore the remnants of mysterious temples and terraces, consider the importance of preserving ancient sites like these for future generations. How can we ensure places like Machu Picchu maintain their historical integrity, and how can we protect them from tourism pressures and commercialization?

EVERYTHING YOU GET

Full-time Tour Director; Sightseeing tours led by expert, licensed local guides; Entrance fees: weaving demonstration, Seminario Studio, Machu Picchu and a service project; Conference registration; weShare; Round-trip flights from Miami on major carriers; Comfortable motorcoach; Hotels with private bathrooms; Breakfast and dinner daily, lunch on days 9 and 10

Join the movement. Make a global impact.

When you join a Global Student Leaders Summit, you also join a global movement. These extraordinary events combine an educational tour with a two-day leadership conference, tackling significant global issues in places where they come to life, and empowering students today to start becoming leaders of tomorrow.

Each Summit has a unique destination, theme and perspective. At every one, students explore amazing places and address important global issues. And when they return home, they are prepared to use their newly developed skills to address local challenges.

Students designed innovative solutions to global issues at these Summits:

COSTA RICA

Addressing Environmental Sustainability

SWITZERLAND

Innovation and the Future of Education

THE NETHERLANDS

Exploring Human Rights

ICELAND

The Future of Energy

Visit eftours.com/SummitHighlights to see our past Summits in action and find out how you can be a part of it.

Students develop leadership skills and build new perspectives on global issues in workshops led by thought leaders. In small international teams, they learn the design thinking process and apply their learnings to propose new solutions.
